

# HALF A GIRL

## VERSE 1

**Bm**  
Ice cold moon  
**F#m**  
Burning sun  
**A**  
Put down the rose, pick up the gun  
Were you true when you said  
**E**  
You'd go with me 'till the end?

## VERSE 2

**Bm**  
Was it last century  
**F#m**  
Or yesterday?  
We were driving on the same freeway  
**A**  
Took the past, left the future I don't want to live  
**E**  
Keep fearing that another end will slip through your sleeve

## PRE-CHORUS

**Bm F#m**  
Lay here  
**A**  
I'll turn the music down  
Keep the lights out  
**E**  
Ohhhh There'll be nothing for you to fear

**Bm F#m**  
Lay here  
**A**  
I'll turn the music down  
Keep the lights out  
**E**  
Ohhhh

# HALF A GIRL

## CHORUS

**Bm**  
Suddenly I'm back in my childhood  
**F#m**  
Noticing the moon for the first time  
**Bm**  
Can someone come and illuminate my way?  
**F#m** **C#m**  
It feels like I'm lost on a dead street  
**G#m**  
I miss that half a glass of whiskey neat  
  
All my past turned to black  
  
Tell me, how can I come back?

## VERSE 3

**Bm**  
No silly speech  
**F#m**  
No love tattoo  
**A**  
Am I just half a girl lost in this avenue?  
  
Without your eyes I can't look ahead  
**E**  
Feels like a part of me died over our last shared cigarette

## VERSE 4

**Bm**  
Don't even care  
**F#m**  
How long it takes  
  
Just tell me you're coming home and I'll wait  
**A**  
Put up with mothers, daughters, friends, poets apart  
**E**  
Wish that people would quit the ma'am skip to the sweetheart

## PRE-CHORUS

**Bm F#m**  
Lay here  
**A**  
I'll turn the music down  
  
Keep the lights out  
**E**  
Ohhhh There'll be nothing for you to fear

# HALF A GIRL

**Bm F#m**

Lay here

**A**

I'll turn the music down

Keep the lights out

**E**

Ohhhh

## CHORUS

**Bm**

Suddenly I'm back in my childhood

**F#m**

Noticing the moon for the first time

**Bm**

Can someone come and illuminate my way?

**F#m**

**C#m**

It feels like I'm lost on a dead street

**G#m**

I miss that half a glass of whiskey neat

All my past turned to black

Tell me, how can I come back?

## BRIDGE

**C#m G#m**

I know it's a shot in the dark

**A**

To call you blood, call me shark

**E**

**G#m**

Got to start somewhere

**C#m**

**G#m A**

**E G#m**

Wait for life to come all over again

**C#m**

Never really felt this sober

**G#m**

Like my life was an illusion that now is over

**A**

Am I just missing your head's weight on my shoulder?

**C#m**

Or is this just what you get when you get older?

**G#m**

I guess this is just what you get when you get older.
