

INESCAPABLE PARADISE

VERSE 1

C Every conversation feels like a gunfight **G**
You keep asking me why do I wanna part?
Am
Well, because my gun targets the sky
F
But yours aimed at my heart

VERSE 2

C It's not that I'm mad or upset **G**
But you keep talking 'bout that night, all I remember's a sunset **Am**
You could just move on and smile
F
But that just wouldn't be your style

CHORUS

Am I'll ask: "who is she?"
F You'll say it is me
I'm making things up in my mind **C**
Like we're some kind of an inescapable paradise **G**
Am We're nothing but
F A made-up love
Now I'm left with the ruins of your earthquake **C**
We turned into a life what should have been a ten-minute break **G**

VERSE 3

C How did your initials end up on my neck? **G**
We were just two strangers on a test
Am
A nervous guy in a corner
F
And a girl in a backless dress

INESCAPABLE PARADISE

VERSE 4

C There's this tightness in my chest **G**
When you say you could just lay here and be done with the rest **Am**
You could just shut up and smile
F But that just wouldn't be your style

CHORUS

Am I'll ask: "who is she?"
F You'll say it is me
I'm making things up in my mind **C**
Like we're some kind of an inescapable paradise **G**
Am We're nothing but
F A made-up love
Now I'm left with the ruins of your earthquake **C**
We turned into a life what should have been a ten-minute break **G**

BRIDGE

Am How did we get so unfree **F**
You're just a friend I'd call for a late-night tea **Am**
Didn't make this choice,
F **G** **Am**
Waking up to your white shirts and your husky voice

You're burring me, kissing in the rain
F
I'm about to lose the midnight train
Am **G**
You call yourself a breeze, but I feel you like a hurricane

INESCAPABLE PARADISE

CHORUS

Am

I'll ask: "who is she?"

F

You'll say it is me

C

I'm making things up in my mind

G

Like we're some kind of an inescapable paradise

Am

We're nothing but

F

A made-up love

C

Now I'm left with the ruins of your earthquake

G

We turned into a life what should have been a ten-minute break
